11 newcomers included Fachmann, Freevent, Invisiline, Wear, RGP tech, Ibreeze, Vлага, Yaldrin, Technobalance, Profvent and STL

Partner of the Climate World Congress business program 2022 - Panasonic Corporation

Why Climate World 2023?

- The leading trade fair for HVAC R sector in Russia
- New opportunities in Russian market due to the withdrawal of some european companies from the country
- Annual meeting point for decision makers and key players of the industry
- The expo and the congress in one place. Comprehensive business program runs throughout all four days of the event
- B2B communication with full support of industry associations

Testimonies

"We are very happy to exhibit at the Expo. Many people look forward to this event every year. Here, in one venue, we can show all the developments that our company has been able to achieve over the past 2-3 years to everyone working in the climate industry. "

Mr. Andrey Derepasov, Commercial Director, VEZA

"All professionals related to ventilation and air cleaning should definitely be at the Climate World Expo. Climate World Expo is a project that is constantly evolving. The main focus of the Expo is to present technological solutions to help people create projects and implement them. It is a very professional industry exhibition. "

Mr. Sergey Kozhevnikov, Director of Consumer Electronics Division, Panasonic Russia

"The Climate World is the main industry event. We have been participating at the exhibition for the past 12 years and we will participate in the future. The exhibition provides a great opportunity not only for professional meetings, but also for informal communication. This exhibition is a large - scale event, all major market players are present here. "

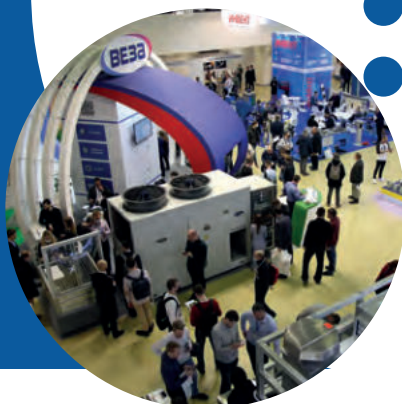

Mr. Oleg Loginov, Development Director, GALVENT Ventilation Factory

"The Expo provides a great opportunity to meet face - to - face a large number of customers which is a rare occasion in our business. Everyone who works in the field of heating, air conditioning, refrigeration and ventilation must be at this exhibition. These four days in Moscow are the best way to present yourself both as a supplier as well as a customer. "

Mr. Roman Nyatin, Leading Specialist of the Sales Department, Russian Copper Pipes LLC
